Lec 1 : Introduction to the framework of business analysis and valuation	5
1. Business strategy analysis	5
2. Accounting analysis.....	6
3. Financial analysis	6
4. Prospective analysis	6
5. Role of intermediaries in capital markets :	6
6. Role of financial statement analysis :	7
7. 关于 FSA 最重要的核心观点 :	7
Lec 2 Business Analysis	8
1. what is business analysis?	8
2. efficient market hypothesis:.....	8
3. Agency theory:.....	9
4. Signalling:	9
5. Accounting accruals:	9
6. Major objectives of financial reporting.....	9
7. A firm's strategy is heavily influenced by the industry it belongs to.....	9
8. Industry analysis: 各行业的 FS 的特点 :	9
9. strength and weakness 也会被对手和环境的影响 :	10
10. 找到自己的强项, 最基本的有下面两个 :	10
11. Corporate strategy analysis:.....	11
12. Accounting conservatism	11
13. Quality of accrual accountings depends on	11
14. 每个 intermediary 在其中扮演的角色 :	12
15. Role of Financial Statement Analysis:	13
Lecture 3 Accounting analysis ----the principles	14
2. What is AA?	14
3. overview:.....	14
4. Understand the business and where manipulation is more likely:	14
5. 啥情况下可能出现 Accounting Manipulation:	15
6. Process of accounting analysis:	15
7. Identify and Assess Key Accounting Policies	15
8. Assess accounting flexibility:.....	16
9. Evaluate Accounting/Reporting Strategy:.....	16
10. Evaluate the Quality of Disclosure:.....	16
11. Identify and Assess Potential Red flags	17
12. Undo Accounting Distortions to better serve your analysis	17

13.	Accounting analysis restatement:	17
14.	下一个例子 :	19
Lec 4 Accounting Analysis ---- Income Statement Analysis		20
1.	Asset Liability Equity Rev Exp	20
2.	tax deductible	20
3.	earning management:	20
4.	discretionary accruals:	20
5.	Discretionary accounting policies:	21
6.	Motives to manage earnings:	21
7.	Revenue recognition:	21
8.	Inventory valuation methods:	22
9.	Case study:.....	23
Lec 5 Accounting Analysis----OCI and BS Analysis.....		25
1.	Analysing (Other) Comprehensive Income.....	25
2.	clean surplus accounting:	25
3.	Asset distortions comes from:.....	25
4.	asset distorting 失真 items	25
6.	Impairment of non-current asset, example:	27
7.	Write down of depreciable assets:	27
8.	Intangible assets:	27
9.	operating lease	28
10.	finance lease	28
11.	distortion:	28
12.	Commonly used approach to estimate allowance:	28
13.	Contingent liability:.....	28
14.	understatement of liability occur when:.....	28
15.	Post-employment benefit obligations	28
16.	arise primarily from distortions in assets and liabilities	30
17.	OCI.....	30
18.	Special equity distortion	30
Lec 6 Financial Analysis---Ratio Analysis		31
1.	先 focus on ratio analysis, 下一课是 cash flow analysis.....	31
2.	how to achieve profit and growth:	31
3.	decomposing ROE: 记住公式	31
4.	decomposing ROE in new way:记住公式.....	33
5.	Key profitability ratio:	33
6.	Evaluating investment management ⇒ Asset turnover : sales/asset	33
7.	Evaluating financial management:	34
8.	Case study: Manufactured Homes	34

Lecture 8 Financial analysis ----Cash Flow Analysis	35
1. strong market form:.....	35
2. 这节课主要说后面蓝色筐的东西 :	35
3. financial leverage:.....	35
4. some ratios to estimate the short-term liquidity (考试会给) :	36
5. ratios for long-term solvency:	36
6. ratio for ability to pay interest on debts:.....	36
7. sustainable growth rate:	36
8. General map:	37
9. Cash flow analysis:.....	37
10. Free cash flow:.....	38
11. 分析步骤 :	38
12. 总变化 :	38
13. 每个的变化 :	38
14. 第二个例子的总变化和分变化 :	40
15. problems:	41
Lecture 9 ---- Prospective Analysis	43
1. Prospective analysis:.....	43
2. Forecasting:	43
3. Steps:	44
4. 例子 :	44
5. Key accounting measures: (和开头的一样)	45
6. Terminal value:	46
7. involves estimating the worth or intrinsic value	46
8. Fundamental valuation:	46
9. Basic steps of fundamental valuation:.....	47
10. Common valuation models:	47
11. Discounted dividend model:	47
12. Case study:	48
13. change of depreciation method:	49
Lecture 10 ----Prospective analysis_More fundamental models	50
1. previous class:.....	50
2. Common models:.....	50
3. Discounted abnormal earnings model for equity:.....	50
4. a practical problem:	52
5. AE model for valuing assets:.....	53
6. Discounted cash flow model:	53
7. Practical problems:	54
8. Continuity correction:	54

9.	Other issues in value estimation	54
10.	Role of clean surplus:	55
11.	Case 1: P & G.....	55
12.	case 2: Thermo.....	58
Lecture 11 Valuation Implementation and Course Revision		61
	summary of the last lecture:.....	61
	Role of clean surplus:	61
	Valuation Implementation:	61

Lec 1 : Introduction to the framework of business analysis and valuation

1. Business strategy analysis

- a. 主要问题
 - i. key risk factors
 - ii. profitability driver
 - iii. sustainability of current performance
 - iv. future growth of performance
 - v. form initial perception of future growth
- b. Industry analysis 公司属于哪个行业，这个行业的平均数值咋样
 - i. 公司特征和其所在行业特征基本一致
 - ii. Helps to determine how the firm can outperform the peers in the industry
- c. Corporative Strategy Analysis 核心竞争力

- i. For differentiators, they want to be unique, the first mover \Rightarrow a lot of capital for R & D (对于这种公司, 就要看其 R&D 的方法对不对)
 - ii. For cost leaders: find cost saving strategy
- d. Business unit Analysis 公司策略 (对于 **multi-business organization** 来说的)
 - i. How well the company is managing the key profitability drivers

2. Accounting analysis

- a. Map the above into accounting, 去量化上面的内容
- b. Identify accounting flexibility 哪里可以有变化、做手脚的可能
- c. Accounting policies (比如 LIFO 还是 FIFO 这些) and estimates 合理吗
- d. Undo distortions 修正不正确的

3. Financial analysis

- a. Decompose the key ratio (老的方法和新的方法, 新的方法 \Rightarrow condensed BS & IS)
- b. 4 groups of activities:
 - operating
 - investing
 - financing
 - dividend
- c. ratio analysis
- d. cash flow analysis (indirect method) \Rightarrow accrual analysis
- e. 过去和现在的情况, 未来能否持续

4. Prospective analysis

- a. Forecasting:
 - Use condensed BS and IS as the framework
- b. Determine intrinsic value \Rightarrow valuation
- c. 未来的各种偿付能力, 然后算出企业的价值 (based on time value of money)

5. Role of intermediaries in capital markets :

- a. **Financial intermediaries:** venture capitalists, banks, collective investment funds, pension funds, insurance companies ...
- b. **Information intermediaries:** auditors, financial analysts, credit-rating agencies, the financial press, etc. ...

6. Role of financial statement analysis :

- a. Manager 知道咋回事, 但不告诉大众, 这时就要有 analysis
- b. Check FS data 的质量

7. 关于 FSA 最重要的核心观点 :

- a. 因为是 accrual \Rightarrow based on expectation \Rightarrow 主观且 based on assumption \Rightarrow 就有可能动手脚

一定要看那些 General Entry, 考试会考到

Lec 2 Business Analysis

1. what is business analysis?

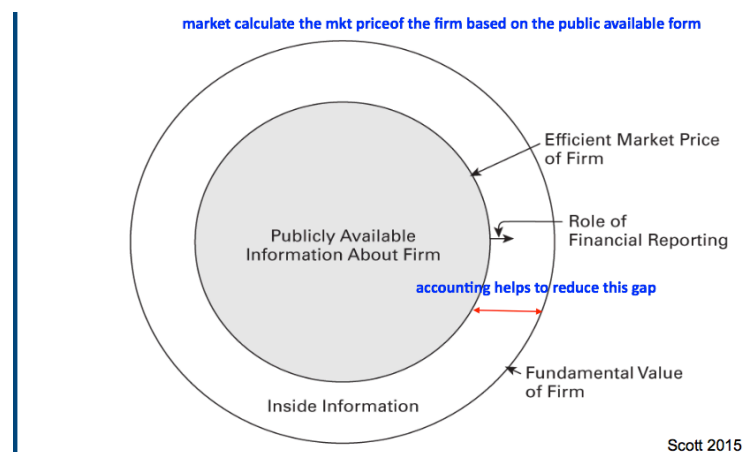

- a. business analysis: identify the key profit driver and the major risks

2. efficient market hypothesis:

- a. relevant information **of below** will be fully reflected by stock price:
 - o past price (weak form)
 - o publicly available (semi-strong)
 - o all information (strong)
- b. One way of evaluating efficiency is to see if abnormal (risk adjusted and cost covering) returns can be made from exploiting the 'inefficiency' \Rightarrow semi strong form
- c. technical analysis 不能解释之后的 sharp decrease, 因为这不是由于 past price 的 movement 造成的, 而是由公司的一些不良信息曝光造成的

- d. Fundamental analysis 可以 generate private information from the public financial statements \Rightarrow so can be used to generate excess return in semi-strong mkt

3. Agency theory:

- a. Manager and SH may have divergent objectives
- b. SH may incur monitoring or contracting cost to control the manager

4. Signalling:

- a. 例子就是公司向公众传达：说自己家的产品质量很好
- b. For the signal to have credibility it must be costly to the signaller if untrue.

5. Accounting accruals:

- a. 记住所有的什么 deferred/accrual Exp/Rev 都是 Asset 或者 Liability
 - deferred revenue: 别人给了钱，但你还没提供该服务
 - deferred expense: 你给了钱，但还没享受服务
- b. buy long-term profit-generating asset:
 - match the initial cash outflow against future inflows from the investment
就是 CFA 的那些 cost recognition method
 - Spreading the cost of the goose over current and future periods
 - Depreciate the cost during the period of the life of goose
 - 一开始先记成 asset，之后慢慢变成 expense，而不是一下子就记成 expense

6. Major objectives of financial reporting

- a. valuation: reduce adverse selection, provide info to outsiders, they gonna use the info to estimate the value of the firm
- b. contracting: (adverse selection and moral hazard), attracting investors, reduce moral hazard

Industry Analysis:

7. A firm's strategy is heavily influenced by the industry it belongs to.

8. Industry analysis: 各行业的 FS 的特点：

- a. Financial Service firms:
 - Financial assets should dominate assets \Rightarrow high level of cash and marketable securities
- b. High tech company:
 - High R&D

- Probably high long term debt since it is usually used to support long-term asset
- c. Most Capital intensive:
 - high PPE
- d. Service firms:
 - Little or no inventories
- e. Firms with high profit margin:
 - Brand names
 - Inventory turnover = cost of goods sold/inventory ⇒ 越大说明卖的越快

2. 通过 industry analysis 的研究来得到公司所处的大环境的特点，因为公司会被行业的整体氛围所影响

9. strength and weakness 也会被对手和环境影响：

- a. rival among existing firms
- b. threat of new entrants
- c. threat of substitute products
- d. bargaining power of buyers
- e. bargaining power of suppliers

Competitive strategy analysis:

10. 找到自己的强项，最基本的有下面两个：

- a. Cost leadership:
- b. Product / service differentiation:
